yoichi.tsuchiya@gmail.com

Professor
School of Commerce
Meiji University
1-1 Kanda-Surugadai, Chiyoda-ku, Tokyo, Japan 101-8301

Research Interests

Economic Forecasting, Applied Econometrics, International Finance

Publications

1. Firms' economic growth expectations and reactions to micro and macro news in Japan (with D. Oh) (forthcoming), *Applied Economics Letters*.
2. Information advantage of narratives to consumers' inflation forecasts (with H. Takemura, and T. Udagawa) (2025), *Applied Economics Letters*, 32(2), 236-241.
3. Dark web activity in the Japanese language between 2004 and 2020: A case study of the Onion Channel (with N. Hiramoto) (2024), *Deviant Behavior*, 45(11), 1550-1567.
4. Rationality and information advantage of the Japanese government's construction forecasts over economic development (2024), *Construction Management and Economics*, 42(8), 671-694.
5. Conservatism and information rigidity of the European Bank for Reconstruction and Development's growth forecast: Quarter-century assessment (2024), *Journal of Forecasting*, 43(5), 1399-1421.
6. Directional accuracy of Singapore's macroeconomic forecasts (with Y.B. Ahn) (2023), *Singapore Economic Review*, 68(5), 1569-1583.
7. Are illicit drugs a driving force for cryptomarket leadership? (with N. Hiramoto) (2023), *Journal of Drug Issues*, 53(3), 451-474.
8. Consumers' perceived and expected inflation in South Korea (with Y.B. Ahn) (2023), *Applied Economics Letters*, 30, 1561-1565.
9. Asymmetric loss and the rationality of consumers' inflation forecasts: Evidence from the US (2023), *Applied Economics Letters*, 30, 1298-1307.
10. Assessing the World Bank's growth forecasts (2023), *Economic Analysis and Policy*, 77, 64-84.
11. Consumers' perceived and expected inflation in Japan—irrationality or asymmetric loss? (with Y.B. Ahn) (2022), *Empirical Economics*, 63, 1247-1292.
12. Evaluating plant managers' production plans over business cycles: asymmetric loss and rationality (2022), *SN Business & Economics*, 2:100.
13. Evaluating the European Central Bank's uncertainty forecasts (2022), *Economic Analysis and Policy*, 73, 321-330.
14. Thirty-year assessment of Asian Development Bank's forecasts (2021), *Asian-Pacific Economic Literature*, 35, 18-40.
15. How cryptocurrency is laundered: Case study of Coincheck hacking incident (with N. Hiramoto) (2021), *Forensic Science International: Reports*, 4, 100241.
16. Accuracy and Asymmetry of the U.S. Federal Open Market Committee's Range Forecasts (2021), *Empirical Economics Letters*, 20(8), 1469-1477.
17. Asymmetric Loss of Macroeconomic Forecasts in South Asia: Evidence from the SPF survey of India, Indonesia, and Singapore (with Y.B. Ahn) (2021), *Emerging Markets Finance and Trade*, 57, 3489-3507.
18. The predictive power of ECB's interval forecasts over point forecasts (2021), *Applied Economics Letters*, 28, 1413-1418.

19. Crises, market shocks, and herding behavior in stock price forecasts (2021), *Empirical Economics*, 61, 919-945.
20. The value added of the Bank of Japan's range forecasts (2021), *Journal of Forecasting*, 40, 817-833.
21. Multivariate asymmetric loss functions of the European Central Bank (2021), *Applied Economics Letters*, 28, 1026-1030.
22. Dark web in the dark: Investigating when transactions take place on cryptomarkets (with N. Hiramoto) (2021), *Forensic Science International: Digital Investigation*, 36, 301093.
23. Measuring the evolution of dark web marketplaces via Bitcoin transactions: From birth to independence (with N. Hiramoto) (2020), *Forensic Science International: Digital Investigation*, 35, 301086.
24. Asymmetric loss and the Rationality of Inflation Forecasts: Evidence from South Korea (with Y.B. Ahn) (2019), *Pacific Economic Review*, 24, 588-605.
25. Measuring consensus and dissensus: A generalized index of disagreement using conditional probability (N. Hiramoto) (2018), *Information Sciences*, 439-440C, 50-60.
26. Do production managers predict turning points? A directional analysis (2016), *Economic Modelling*, 58, 1-8.
27. Asymmetric loss and rationality of Chinese renminbi forecasts: An implication for the trade between China and the US (2016), *Journal of International Financial Markets, Institutions & Money*, 44, 116-127.
28. Assessing macroeconomic forecasts for Japan under an asymmetric loss function (2016), *International Journal of Forecasting*, 32, 233-242.
29. Directional analysis of consumers' forecasts of inflation in a small open economy: evidence from South Korea (with Y.B. Ahn) (2016), *Applied Economics*, 48, 854-864.
30. Dynamic Laffer curves, population growth and public debt overhangs (2016), *International Review of Economics & Finance*, 41, 40-52.
31. Directional analysis of fiscal sustainability: Revisiting Domar's debt sustainability condition (2016), *International Review of Economics & Finance*, 41, 189-201.
32. Directional accuracy tests of Chinese renminbi forecasts (with S. Suehara) (2015), *Journal of Chinese Economic and Business Studies*, 13, 397-406.
33. Simple analytics of the dynamic Laffer curve under alternative financing schemes (2015), *Applied Economics Quarterly*, 61, 199-227.
34. Asymmetric loss and herding behaviour of exchange rate forecasters: evidence from South Africa (with T. Kato) (2015), *Applied Economics*, 47, 5841-5852.
35. Herding behavior and loss functions of exchange rate forecasters over interventions and financial crises (2015), *International Review of Economics & Finance*, 39, 266-276.
36. Linkages among commodity futures prices in the recent financial crisis: An application of cointegration tests with a structural break, (2015), *Cogent Economics & Finance*, 3: 1012436, 1-14.
37. Joint evaluation of the directional accuracy of federal budget forecasts (2014), *Applied Economics Letters*, 21, 582-585.
38. Purchasing and supply managers provide early clues on the direction of the US economy: An application of a new market-timing test (2014), *International Review of Economics & Finance*, 29, 599-618.
39. A directional evaluation of corporate executives' exchange rate forecasts (2014), *Applied Economics*, 46, 95-101.
40. Are consumer sentiments in Japan useful? An application of a new market-timing test (2014), *Applied Economics Letters*, 21, 356-359.
41. Are production managers' forecasts useful? Joint evaluation and robustness (2013), *Applied Economics Letters*, 20, 1403-1406.
42. Joint evaluation of the directional accuracy of corporate executives' forecasts (2013), *Applied Economics Letters*, 20, 1193-1196.
43. Evaluating corporate executives' exchange rate forecasts under a flexible loss function (2013), *Applied Economics Letters*, 20, 1135-1138.
44. Are government and IMF forecasts useful? An application of a new market-timing test (2013), *Economics Letters*, 118, 118-120.
45. Do corporate executives have accurate predictions for the economy? A directional analysis (2013), *Economic Modelling*, 30, 167-174.

46. Evaluating Japanese corporate executives' forecasts under an asymmetric loss function (2012), *Economics Letters*, 116, 601-603.
47. Is the Purchasing Managers' Index useful for assessing the economy's strength? A directional analysis (2012), *Economics Bulletin*, 32, 1302-1311.
48. Linkages among precious metals commodity futures prices: evidence from Tokyo (2010), *Economics Bulletin*, 30, 1772-1777.
49. 'Plan for Strengthening the Competitiveness of Japan's Financial and Capital Markets' and Issues on Domestic Exchanges (2008), *JSRI Journal of Financial and Securities Markets*, 62, 65-80 (in Japanese).

Working Papers

1. Evaluation of Population Forecasts in Japan and Their Implications for Low Fertility and Population Aging
2. Usernames on a Japanese Dark Web Forum for Illegal Drugs (with N. Hiramoto)

Work in Progress

1. How Firms Form Expectation: Evidence from Plant-Level Production Forecasts
2. When Numbers and Narratives Diverge: Assessing the Consistency of Economic Forecast Communication
3. What Do the Text Data from Consumer Sentiment Surveys Tell Us? (with M. Kawagoe)
4. Stylizing the long-term macroeconomic forecasts

Conferences and Seminars

2018: The Joint Statistical Meeting 2018, Vancouver (Canada); The 38th International Symposium on Forecasting, Boulder (US).

2017: The Joint Statistical Meeting 2017, Baltimore (US); The 37th International Symposium on Forecasting, Cairns (Australia).

2016: The 36th International Symposium on Forecasting, Santander (Spain).

2013: The 67th European Meeting of the Econometric Society (Gothenburg, Sweden).

2011: Macroeconomics and Econophysics Workshop (Tokyo, Japan).
